Forecast For Southwest England
Issued by Met Office Exeter
at 0400 on Sunday 23 May 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Widespread rain approaching from the west.

Today:
Largely cloudy to start with a chance of some showers. An area of locally heavy rain will push into the region from the west in the late morning, accompanied by strong winds and spreading across all parts through the afternoon. Maximum temperature 12 deg C (54 deg F).

Tonight:
Rain will continue clearing to the east, with showers following behind. Turning largely dry for a time overnight before widespread, heavy showers move in during the small hours. Minimum temperature 6 deg C (43 deg F).

Monday:
Breezy with scattered showers, these heavy at times and carrying a risk of thunder and hail. Showers will clear in the evening, allowing for a dry night with clear spells. Maximum temperature 14 deg C (57 deg F).

Outlook for Tuesday to Thursday:
Breezy with some showers possible on Tuesday and Wednesday, but largely dry otherwise with spells of sunshine. Dry on Thursday with lighter winds and feeling pleasant in any sunshine.
